

Fibreglass Swimming Pool Standard Inclusions

Quoted prices include the following for a metropolitan installation in a level sandy site.

- Quality endorsed fibreglass swimming pool shell built to Australian Standard AS1838:2021 – under license number 520101 – with a fully matched lamination system, including an Extended Lifetime Structural Warranty. Always ask your pool builder for their license number.
- Skimmer box to Australian Standard AS 1838.
- Standard bobcat excavation to a flat, sandy site including removal of clean soil to a 10km radius (please note tip fees are not included).
- New generation, high performance, corrosion resistant fibreglass.
- Microtech Anti-Microbial Pool Protection.
- Delivery and installation of pool within the Perth metro area (travel costs shall apply for outer suburbs).
- Up to 95 tonne crane allowance within 2 hours site time (subject to pool size).
- Electrical connection to 40 linear metres with 10m of trenching and a double weatherproof GPO wired back to the meter box with a separate circuit breaker.
- Choice of quality high rate sand or cartridge filter.
- Hi-flow, large capacity pool pump with a 3 year motor warranty.
- Self-cleaning salt water chlorinator with electronic timer.
- Quality LED Multi pool light with transformer.
- Choice of standard surface finishes and colours.
- Pool accessory kit including vacuum, telescopic handle, hose, broom, leaf rake and test kit.
- Initial water treatment and pool clean, including start up salt and chemical supply.
- Equipment demonstration, handover and Pool Owner's Manual.

Note: SPASA Pool Contract now includes compliance costs as a separate charge.
