

Fibreglass Swimming Pool **Standard Inclusions**

Quoted prices include the following for a metropolitan installation in a level sandy site.

- Quality endorsed fibreglass swimming pool shell built to Australian Standards AS1838 - under license number 520101 - with a fully matched lamination system, including an Extended Lifetime Structural Warranty. Always ask your builder for their license number.
- Skimmer box to Australian Standard AS2818.
- Standard bobcat excavation to a flat, sandy site including removal of clean soil to a 10 km radius (please note tip fees are not included).
- New generation, high performance, corrosion resistant fibreglass.
- Microtech Anti-Microbial Pool Protection.
- Delivery and installation of pool within 70km of the Perth CBD.
- 60 tonne Grove crane allowance for pools (subject to pool size).
- Electrical connection to 40 linear metres with a double weatherproof GPO wired back to the meter box with a separate circuit breaker.
- Choice of quality high rate sand or cartridge filter.
- Hi-flow, large capacity pool pump with a 3 year motor warranty.
- Self-cleaning salt water chlorinator with electronic timer.
- Quality Standard Blue LED underwater pool light with transformer.
- Choice of standard surface finishes and colours.
- Pool accessory kit including vacuum, telescopic handle, hose, broom, leaf rake and test kit.
- Initial water treatment and pool clean, including start up salt and chemical supply.
- Equipment demonstration, handover and Pool Owner's Manual.

Note: SPASA WA Pool Contract now includes compliance costs as a separate charge.
